

Just wanted you and your staff to know how much I appreciate all the service you render to the patients at NHC. Laurens County is blessed to have this beautiful facility for patients so they can regroup in style.

As you know, I was a patient two times for therapy. I can't relate how efficient this group of employees were to me and the other patients. NHC is very fortunate to have such a Therapy program and the personal is very efficient.

The kitchen crew is awesome, the food was well prepared and delicious. The dining area is beautiful and the aids are available to help patients that can't feed themselves.

The nurses are perfect for this wonderful facility .They are so caring, efficient, and take such good care of patients. These nurses are very talented and constantly check on the patients. Also, the extra activities, such as bingo, cookie time, devotion every day games and entertainment, is appreciated by the patients. Some kind of entertainment was always available for the patients.

From the gardens, beautiful landscaping, friendly personal that greet you as you enter, the gorgeous decorations is appreciated by the patients and the visitors. It's a great place to visit and recoup.

Mr. Holder is such a delight and very efficient. He walks the halls and brightens our day. He is a "top-notch" administrator and really cares for the patients and his employees. He does so many special activities, such as cook-outs on the beautiful patio and getting outside entertainment to come and entertain the patients. He is a "keeper."

Also, almost forgot about the cleaning crew, they were very friendly and so helpful. They take pride in keeping the halls and our rooms clean.

Again, thanks to all NHC personnel and I can't say enough how much I appreciated the whole crew for the great care that I received.

Pat N.
